www.kopos.com

type number: **SD 2_S**

product description:
Cables holder is available to create cable trays with functionality in fire on the ceiling or wall.

Delivery is in open form for easier installation of cables. Holders are closed after installation of cables to tray is finished.

Cable trays are standardized constructions - the width of holder is 20 mm and distance of holders 300 mm. Cables with proven maintenance of operability in fire from any manufacturer may be used in the systems.

Cable trays are non-standardized constructions when placing SD 2 in distance of 600mm. Cables that were tested with this cable holder must be used.

Easy addition cables into holders in future.

Fixation by SB 6,3X35, SB 6,3X45 or by anchor KPO 6.

maximum load:
communication cables - 2,5 kg/m for standardized and non-standardized trays

power cables - 5 kg/m for standardized trays and 6 kg/m for non-standardized trays

surface finish:
S: Pre-Galvanized, zinc-layer 15 - 27 μm

sales amount:
á 1 pc

package:
200 pcs

classification:
ČSN 73 0895	P 90-R
DIN 4102-12	E 90
STN 92 0205	PS 90

Fire classification is depend on the specific conditions of the cable tray, detailed in the catalog Systems with maintained functionality in fire.

storage:
EN 60721-3-1
